Education

Ajay Kumar Garg Engineering College

Bachelor of Technology in Computer Science Engineering (Data Science)

Uttarakhand Public School

Science

Ghaziabad, Uttar Pradesh

2020/10 – Present

NOIDA, Uttar Pradesh

2020

Experience

Nodejs Intern

2023/07 – 2023/08

Acemagic

- Implemented customized automation rules and triggers using Node.js to optimize CRM software functionality, leading to a 40% decrease in response time for customer inquiries.
- Collaborated on two real-time client projects to tailor and adapt the software to meet their specific requirements.

Projects

Memories App | *React.js, Redux, Nodejs, Express js, MongoDB,JWT*

2023/05 – 2023/06

- Developed and created a lively social media platform using the MERN stack; optimized CRUD operations, resulting in a 40% reduction in data retrieval time and improved user experience.
- Pioneered a MERN-based social media platform fostering user connections, shared experiences, and vibrant online interactions.
- Streamlined website navigation, posting, and interaction through an intuitive redesign, resulting in a 40 percent reduction in user bounce rate and a 30 percent increase in user engagement.
- Responsive design principles for universal device compatibility.

Real Estate App | *React.js, Tailwind CSS, CSS*

2023/07

- Designed a captivating React-based real estate website offering an immersive property exploration experience, facilitating users in discovering their dream homes effortlessly.
- Engineered an intuitive and seamless navigation interface utilizing React, resulting in a 30 percent decrease in user exit rate and a 25% increase in property search conversions.
- Ensured a responsive user experience across diverse devices, from desktop computers to mobile devices

Ecommerce Website | *Node.js, Express,MongoDB , React, Redux , JWT*

2023/08 – 2023/09

- Crafted a feature-rich, user-friendly ecommerce platform leveraging the MERN stack, enhancing navigation and visual appeal.
- Secure payment gateways and orchestrated the establishment of robust authentication and user management systems, ensuring an impregnable and personalized shopping experience for 100k+ customers, resulting in a 35% increase in online sales revenue.
- Introduced potent search and filtering mechanisms, simplifying rapid product discovery
- Developed two distinct interfaces, one catering to users and the other to administrators, with the aim of optimizing website management and elevating the overall user experience.

Technical Skills

Languages: C/C++, SQL, NoSQL, JavaScript, TypeScript, HTML/CSS, Tailwindcss

Frameworks: React, Next.js, Node.js, Material-UI, FastAPI

Databases: MongoDB, mySQL

Developer Tools: Git,VS Code, Visual Studio

Libraries: Material, Redux, React Router

Achievements

- Tackled over 300 intricate programming challenges on LeetCode, demonstrating keen analytical abilities and an unyielding commitment to self-improvement

CERTIFICATIONS

- C++ programming Certificate(Issued by Udemy)
- Node js internship certificate(Issued by Acemagick)
